**HUMANITIES**

This field of study focuses on the diverse ways in which people have communicated ideas about arts and human relations. The exploration of the connections among the disciplines of English, History, Communication, Art History, Music, Drama, Philosophy and Languages is emphasized. Development of knowledge and skills in research, analysis, communications and writing are fostered. These abilities are applicable in any profession where communication is central to its activities. Preparation for teaching is supported through an elementary education concentration. Career opportunities are found in business, arts, media, social services, and non-profit organizations.
